7. a
8. a
9. b
10. a

**To The Point About PITs and Pedestrian Safety**  
**REVIEW QUIZ**

Name \_\_\_\_\_ Date \_\_\_\_\_

*The following questions are provided to determine how well you understand the information presented in this program.*

1. Because PITs and pedestrians work in shared spaces, it's important for operators and pedestrians to have an understanding of what's going on around them at all times.
  - a. True
  - b. False
2. Only PIT operators are required to understand and follow common traffic patterns, which can be indicated by signs and floor markings.
  - a. True
  - b. False
3. Trained PIT operators are taught to look all around and sound the horn before moving their truck in any direction.
  - a. True
  - b. False
4. Pedestrians and PIT operators can maintain their awareness by scanning their path of travel while underway so all hazards and obstacles may be avoided.
  - a. True
  - b. False
5. It is best practice for all pedestrians and PIT operators to wear a high visibility vest or clothing.
  - a. True
  - b. False
6. PIT operators only need to sound the horn at intersections if they see pedestrian traffic.
  - a. True
  - b. False
7. Never assume a PIT operator can see you. Stay well clear and make eye contact. Do not approach or cross until the operator gives you a definitive indication that it is safe to do so.
  - a. True
  - b. False
8. Pedestrians can easily be crushed between a PIT and a solid object. Pedestrians should never pass between a PIT and any solid object.
  - a. True
  - b. False
9. You can operate or perform maintenance on any PIT that is small in size, like a powered pallet jack.
  - a. True
  - b. False
10. Most PITs are not designed to accommodate riders. Never attempt to catch a ride on a powered industrial truck. And never attempt to ride the forks to reach an elevated item.
  - a. True
  - b. False
